

SOUTH AFRICA

Winter School

Dates: June or July

Individual Costs: Approx. \$1,155. This includes food, lodging, in-country transportation, and travel/health insurance. This is an estimated cost and does not include international flights, and is based on a team of 10 people for 12 days in country.

Project Costs: \$1,178. This includes materials for all projects. This is a shared cost between all team members.

Winter School Project

Lutheran Hour Ministries (LHM)-South Africa is providing a Winter School (our summer months) opportunity to incorporate a Career Development class for students in 12th grade. This would be an outreach to those students who have fewer resources to better their math and science skills. Curriculum will be provided to the team prior to the trip, allowing time to prepare. A few items that will be needed for this project are flip charts, pens, name tags and exam pads. These items will be purchased in South Africa. LHM-SA will provide material for Bible study and devotions. This will be separate from the school curriculum.

Project Location

Johannesburg, some call it Jo'burg or Jozi while the Nguni people call it iGoli or City of Gold. The name refers to Johannesburg's beginnings as a 19th century gold rush town and today it is the country's commercial center. Economic strength, energy, a beautiful climate and a commercial edge make Johannesburg a fascinating place. Johannesburg is a divided city: the poor mostly live in the southern suburbs or on the peripheries of the far north, and the middle class live largely in the suburbs of the central and north. Around 20 percent of the city lives in abject poverty in informal settlements that lack proper roads, electricity, or any other kind of direct municipal service. Another 40 percent live in inadequate housing with insufficient municipal housing. South Africa is a parliamentary democracy and is in many respects a developed country, although much of its population lives in poverty.
