Playtime With A Purpose!

Today's preschool child never knew a time without computers, Internet, smart phones and iPads. Today's preschool child is using technology to watch movies, Skype their grandparents, play games, read stories, and so much more!

It is into their world that **JCPlayZone** offers a place for the young child to play games, color pages, and listen to music while adults help find recipes and e-cards to send. All of this is Bible-centered, sharing the Gospel of Jesus as the child navigates through the pages.

The best part of the **JCPlayZone** site is the opportunity for the kids to hear daily devotions and watch animated Bible stories. These devotions and stories are written specifically for young children to teach them the love of Jesus Christ.

JCPlayZone uses research to identify how the young child learns in order to help the child grow mentally as well as spiritually.

Visit today and find out what thousands of parents have already discovered.
Then pass it on – to friends and neighbors!

Check it out for yourself at: www.JCPlayZone.com
